National e-Learning Offer

The National e-Learning Offer complements the delivery of teaching and learning by schools and settings, local authorities and Regional Improvement Collaboratives in Scotland.

It is made up of three elements - live, recorded and supported resources. Live resources include interactive, online classes. Recorded resources are available to watch at any time. Supported resources include assessments, practical experiments, revision resources and more.

All resources have been created by educators for educators to support the development of learning opportunities across the curriculum, from the beginning of the Broad General Education through to the Senior Phase.

Click on the NeLO, West OS & e-Sgoil logos above and below to find out more and search the resource banks.
